Question/s to be Answered

I would like to request the following information under the Freedom of Information Act:

- In this health board, is there a fallback waiting list for women awaiting screening for breast cancer?
- In cases where patients do not turn up for their breast screening appointment, what are the options for a short-notice reallocation of that appointment for another woman in the health board area?

Scottish breast screening programme is a national service and women in Shetland access a visiting service provided by NHS Grampian which manages 1 of the 6 screening centres.

Enquiries should be made to:
