Passed to	Information	Date passed	08/08/2022	Respond by	18/08/2022
Category	Research	FOI number	2022-281		

Question/s to be answered

Dear Sir or Madam

Under the Freedom of Information Act, please could you provide me with following information?

The number of A&E attendances on July 18, 2022 and July 19, 2022, with a primary or secondary diagnosis of:

- T67 Effects of heat and light - **zero**
- L55 Sunburn - **zero**

The number of finished admission episodes on July 18, 2022 and July 19, 2022, with a primary or secondary diagnosis of:

- T67 Effects of heat and light - **zero**
- L55 Sunburn - **zero**

The number of occasions on July 18, 2022, and July 19, 2022, where an occupied ward or clinical area had a daily maximum temperature exceeded 26°C. Please include each occupied ward or clinical area having a daily maximum of over 26°C as one incident (e.g. if two wards exceeded the daily maximum temperature for two days and one clinical area exceeded the threshold for one day then the number of occasions to be reported is five).

This information is not recorded by NHS Shetland

I would like the information on a spreadsheet.

As no data returned, spreadsheet not appropriate.

Also please note the Heat waves reported in the press for the UK did not reach Shetland that is located at 60 degree north.
