Question/s to be answered

For the years 2020/21, 2021/22 and 2022/23 (up to 31 August, 2022), please would you tell me:

1. The total number of Finished Admission Episodes where an ICD-10 indicating a vaping related disorder has been recorded as
 - a Primary Diagnosis or
 - Primary or Secondary Diagnosis.

Can you also break this down by EACH of the following age brackets (i.e. under-9s, 10-14, 15-19, 20-24, over-25s)?

Additionally, I wish the figures to be broken down for EACH fiscal year and diagnoses, and provided in spreadsheet format.

Searching the SMR01 database (inpatient and day case data) on ICD-10 code U07.0 Vaping Related Disorder, we had no admissions for this in Shetland during the period specified.
