### Question/s to be answered

Please provide the following information.

The number of nursing staff by headcount who were absent due to stress, anxiety, depression or other psychiatric illness between (the beginning of ) January 2022 and ( the end of ) August 2022.

Please note that our systems are one month behind in reporting from the payroll system so data reported is only what has been entered into the SSTS system so far. The nursing headcount of staff absence due to stress, anxiety etc = 27, please note some of these staff have had several episodes

Please provide a breakdown by month in a table.

Please note that some staff are off over several months so e.g if they commence absence in Jan and are still off in Aug they will be counted in each month
