3. How many women were given antibiotics (defined as "A single prophylactic dose of intravenous amoxicillin and clavulanic acid" under Assisted Vaginal Birth green top guidelines published in April 2020) intravenously after an assisted birth in 2021?
4. How many women were given antibiotics (defined as "A single prophylactic dose of intravenous amoxicillin and clavulanic acid" under Assisted Vaginal Birth green top guidelines published in April 2020) intravenously after an assisted birth in 2022?

Under FOISA s 12(1), NHS Shetland is not obliged to comply with a request if the estimated cost of doing so exceeds £600. Having reviewed your request, NHS Shetland has determined that the cost of compliance would exceed £600 and so is unable to provide the information requested; we have provided a breakdown of the estimated costs below:

765 sets of patient records X 5 minutes = 3825 / 60 = 63.75 hours

63.75 hours X £15 per hour = £956.25
