Category of information requested	H&SC Delivery - Patient / Clinical Management			

Question/s to be answered

1. The proportion of referrals to CAMHS deemed inappropriate or rejected in the 2019/2020 financial year and the 2020/2021 financial year

2019/2020 = 31%

2020/2021 = 34%

2. The reasons for referrals to CAMHS being rejected in these years

Does not meet CAMHS criteria (mainly Neurodevelopmental assessment requested without co-existing mental health condition or condition has not reached tier 3 stage therefore referral redirected to referrer with recommendations of tier 1 and 2 support).

3. The median and maximum waiting times between initial assessment and the start of treatment in these years

We assess and commence treatment in the one appointment so there currently are no wait times between assessment and treatment.
